

Exceptional Students Course Suite

Supports and scaffolded instruction for students with special needs

Imagine Edgenuity's Exceptional Students Courses ensure students who require individualized support and consideration have equal access to the core curriculum. These courses feature developmentally appropriate lessons for high-school students with accommodations that allow them to work on below-grade-level content. The courses run on the same platform as other Imagine Edgenuity® courses, with the same familiar tools for students and functionality for educators, so that all students have access to the same high-quality learning experience and learn seamlessly alongside their peers.

Unlimited time for assessments

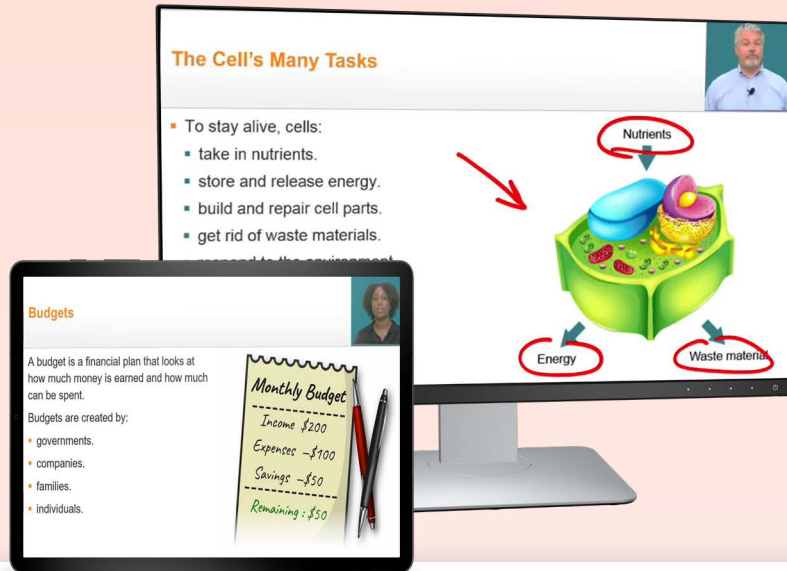

Reduced assessment lengths

Reduced number of answer choices for multiple-choice questions
