

Literacy

Supplemental Suite

Personalized English language arts solutions with implementation options for every PreK–6 classroom

Build Foundational Reading Skills

A path to literacy for every student

Literacy is the means to a more equitable future. Research shows 95% of students are capable of learning to read, yet our national statistics show that inequities persist. Students of color, those with learning disabilities, or those still acquiring the English language consistently perform below their potential.

34%

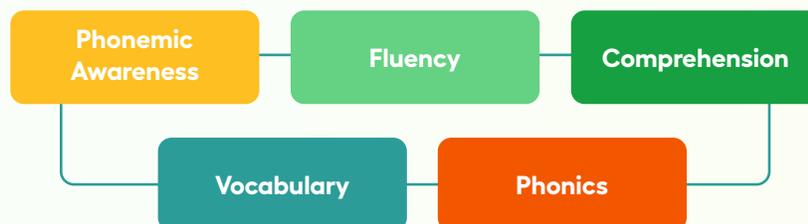

The percentage of students below basic reading level in fourth grade.
Source: National Center for Education Statistics (NCES)

Scientifically-backed methods help students learn to read

Science of Reading research shows that students need to build strong language-comprehension skills in tandem with word-recognition to become skillful readers. Our solutions give students direct, explicit, and systematic instruction and practice in all areas of language and literacy to improve academic outcomes.

The 5 Components of Reading

Explicit and systematic instruction in the five crucial components of reading:

Literacy success

With Imagine Learning's supplemental literacy solutions, every student can experience a successful path to literacy.

2x

Imagine Language & Literacy students at a western Texas school district doubled their gains compared to nonparticipating peers on the state reading assessment.

1.35x

Emergent bilingual learners who use Imagine Language & Literacy are 1.35 times more likely to meet standards on a state English proficiency assessment.

68.9%

The percentage of Imagine MyPath students in Stratford Independent School District who exceeded yearly growth expectations on the MAP™ Growth reading and math assessments during the 2020–2021 school year.

Literacy Supplemental Suite

Grades PreK–6

imagine
language & literacy

Simultaneously accelerate literacy skills and language development with a personalized, engaging solution

Grounded in the Science of Reading, Imagine Language & Literacy® is the only personalized learning program that accelerates both literacy skills and language development side-by-side. It helps motivate engagement and learning through play and makes learning fun with peer-modeling videos, songs, and game-based practice — all created on a video gaming platform.

Fun and engaging lessons provide instruction and practice in all four domains of literacy — reading, writing, listening, and speaking. As students explore and practice skills, their individualized learning pathway adjusts dynamically to maximize their engagement and progress.

Grades K–6

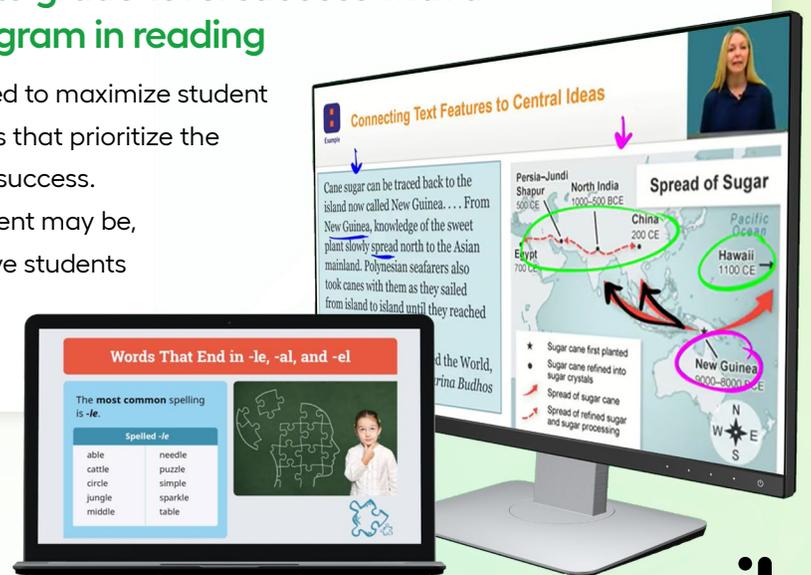

imagine
mypath

Give every student a pathway to grade-level success with a personalized and adaptive program in reading

Imagine MyPath Reading is carefully designed to maximize student learning through personalized learning paths that prioritize the essential skills students need for grade-level success.

No matter how far behind grade level a student may be, Imagine MyPath's adaptive lessons help move students from intervention to supplemental grade-level practice and beyond.

Better Together

Accelerate, differentiate, and target support with our supplemental literacy solutions

Imagine Language & Literacy has...

Imagine MyPath adds...

GOAL

Build literacy skills and language proficiency in grades PreK–6

Intervene to restore unfinished and interrupted learning for reading and math in grades K–6

ASSESSMENT

- Embedded assessment system for language and literacy
- Best-in-class experience for your youngest learners

- Screen for reading skills to power multi-tiered models of support
- Measure student reading ability and growth over time

INSTRUCTION

- Standards-aligned language and literacy instruction and practice
- Explicit and systematic instruction of critical literacy skills

- Age-appropriate lessons for any skill to meet students where they are
- Rapid acceleration pathways for students performing two or more grade levels behind

LANGUAGE SUPPORT

- Specialized instruction based on student's language of strength
- Human-voiced audio supports in 16 languages

- Complete Spanish audio and onscreen text option for math in grades K–5
- Natural-voice AI audio support in 60+ languages

“I’ve been an educator for the last 13 years. This is the first time that I’m able to identify... an individualized program that absolutely attends to my students’ needs, that provides not only primary language support but a level of scaffolding that we wouldn’t be able to provide during regular instructional time.”

Minimum one session per week —
30 minutes per session

PRO TIP:

Monitor student pace. Research shows that students who complete 40+ Imagine Language & Literacy lessons in a school year show significant growth.

Small-Group Rotation Model

Imagine Language & Literacy and Imagine MyPath Reading can be used in a rotation or center-based model during a reading block. As some students work independently on the software, others can meet with the teacher for targeted reteaching.

Computer Lab or 1:1 Model

Teachers instructing students in a lab or 1:1 model can pull groups for reteaching while the rest of the class works in Imagine MyPath Reading independently, allowing all students to be engaged while freeing the teacher up to focus on small-group time.

After-School Program

Imagine MyPath Reading and Imagine Language & Literacy are ideal tools for after-school or Saturday programs, providing an engaging complement to students' core instruction. The Imagine MyPath Teacher Toolkit and Imagine Language & Literacy offline teacher resources can be used to target specific skills during individual and small-group face-to-face instruction.

At Home or Virtual

Students can access Imagine MyPath anywhere, anytime, making it an ideal solution to support virtual and remote instruction, or for homework and reinforcement.

Literacy Professional Development

Equip teachers with customizable PD. All session topics are selected by customers and serve up to 40 educators.

- ✓ **On-Site Comprehensive Package**
 - 4 in-person days, up to 8 sessions
- ✓ **On-Site Foundational Package**
 - 2 in-person days, up to 4 sessions
- ✓ **Webinar Comprehensive Package**
